

Linda, Thank you so much for everything you have done for us over the past couple of years.

It would not have been possible to keep them in the house as long as we did without the incredible care you, Hank, and the other ladies have provided them with. There are so many times when we don't know what we would have done without you!!

Thank you again for everything you have done. We could not have asked for a more caring, kind and respectful home care agency for our parents care. You always tried to keep their humility and dignity intact even through some difficult situations. Thanks again!

S.H.

Thank you for your kind words. Because of this I am so grateful to you, Hank and the staff at Caring Way for doing what you do so my parents can spend as much of their later years as possible in their own home. It's probably not the most ideal situation, but I know it's what they want and I think they are happier there than they ever would be in a nursing home. So thanks again for all you do – we really appreciate it!

S
